PACKAGE 1 Complete Above-Ground Pool Opening
 \$299 (tax incl.) Cover is pumped off, removed and folded. Necessary fittings and hoses are installed. All equipment in good condition will be reconnected. NOTE: We are unable to test connections and equipment at the time of the pool opening due to low water levels. Once the pool is filled, fittings may require tightening by the customer.

DECK
 \$60 (tax incl.) **MUST** add \$60 (tax included) if you have an above ground pool with a deck that covers 1/4 or more of the pool.

NOTE: We are unable to vacuum above ground pools at the time of opening due to low water levels. If this option is selected, the Customer is responsible for notifying Poolside when the water level has been raised to the top of the skimmer face plate and the bottom is clearly visible. Poolside will then schedule the vac service within approx. 7-10 days. Poolside uses its own equipment and will vacuum to waste.

Repair Authorization

Upon opening pools, it is common to discover repairs that need to be performed for the pool to run properly. Since many customers are not home during the opening process, we offer the option (credit card payments only) to authorize additional repairs up to the dollar amount you specify.

This option can often save you the hassle and expense of an additional service call when we need to return to fix issues that we could have repaired during the initial visit to open your pool.

I Authorize:
 Up to \$100
 Up to \$50
 I do not authorize any additional repairs
